

Quizzes

Let's explore and create!

By the end of today's session we will have completed / created a...

- ❑ vocabulary quiz
- ❑ music quiz
- ❑ Google form
- ❑ geography quiz
- ❑ gap-fill

Who...

Can think of three advantages of using quizzes in class?

Let's review...

1. quizlet.com

This is a site where students can review key topic specific vocabulary.

Task...

Sign up for a free [quizlet account](#) and create one vocabulary set.

Tools

2. [lyricstraining.com](https://www.lyricstraining.com)

This is a site where your students can test their listening skills.

Task...

Choose a song and complete the first minute of the song with a partner.

Tools

3. Google forms

[blog post - how to create google forms](#)

Task...

1. Create a Google form for your subject.
2. Send the form to everyone in the class.
3. Learn how to automatically grade the form.

Tools

4. [geoguessr.com](https://www.geoguessr.com)

This is a useful site to test your students on geography, geographical features, modals of deduction etc.

[geosettr example](#)

This site allows you to create your own geoguessr quiz.

[blog entry - how to create geosettr quizzes](#)

Task...

Create your own geosettr quiz and share it with the class.

Tools

5. [cloze generator](#)

It does what it says on the label. Nothing special but super easy to use.

Task...

Choose an article and use the cloze generator to create a gap-fill. Share it with the class.

6. [that quiz](#)

Very easy to use. Includes maths and science quizzes.

Tools

7. [discovery education free-puzzlemaker](#)

You can create word searches and crosswords here.
